SMT line machinery

Storage Systems

Cleaning Solutions

1 supplier with
the complete SMT line
machinery range

Results are achieved by people operating efficient production machinery

You need an experienced SMT partner with industry insights to guide you to the optimal machinery solution.

Having both the technical understanding and the industry know-how, we have developed CORE-emt's 'Complete SMT line machinery from 1 supplier' concept. Offering you the full machinery range to choose from.

Feel free to contact us for machinery guidance, line assessment & process support.

In-house service department

The CORE-emt team include an in-house service department. Here you'll find our 4 skilled Field Service Specialists.

You will meet the Field Service Specialists in connection all machinery handling such as: installations, maintenance service, training, support and machine demonstrations.

CORE-emt has demo facilities at headquarters where we also offer hands-on training on the actual machine that will be on display in CORE-emt's showroom.
